10. Summary of scientific career to date, including key achievements?

I am currently working as Assistant Professor of Psychiatry at Central Institute of Psychiatry Ranchi, India. I am posted in adult psychiatry unit. I am consultant in the geriatric, epilepsy and neurology clinics. I have learnt electrophysiological data processing of qEEG using MATLAB (for spectral power and coherence of various EEG bands), sLORETA, brain connectivity analysis. I have experience in designing visual/auditory paradigm using EPRIME for event related potentials/evoked oscillations/event related desynchronization. I have experience in using 64, 128 and 256 channels (high-resolution) EEG for research purposes. I have recent experiences in acquisition and analysis of functional magnetic resonance imaging (fMRI), Diffusion tensor Imaging (DTI) and cortical neuroplasticity using TMS-EEG system. I have experience in providing non-invasive brain stimulation techniques using rTMS and HD-tDCS. I have received 05 awards from the Indian Psychiatric Society since 2013. I have published around 25 articles in national and international journals and contributed 13 book chapters in reputed textbooks of psychiatry.
